by the mpl
already agreed for the construction of main drain
no 1, the cost of the remaining portion
of the work owned was about Rs 40,000 the
Committee recommends that a loan of Rs 30,000
may be granted to the mpl on the condi-
tions as to interest, and repayment
in 15 yearly instalments, and that a grant-in-aid
of 10,000 may be given to the mpl for
the purpose

The Director has added Rs 8755 to the estimate of calculated total estimate, including extra charges at Rs 56 547 was exempted

by 4 Govt have sanctioned for this purpose in Govt no 2821-31 dtd 18/1/35, dtd 19/1, Page 2

4 The funds for the construction of
the main drain sanctioned by the
Govt of Health, a sum of Rs 4 crores has
been allotted for Harrison Town Improvements

5 The Trustees may be invited
to express their opinion of the loan asked
for and forward orders

Please put up the present Estimates of the Municipality for the current year

& Deducting the Estt and Inland Plant charges at 18½ (amounting to Rs 8700), the estimate comes to Rs 57,033, and if the amount of Rs 8755 ~~—~~ (representing the work carried out) is added, the amount works up to Rs 65,788 as will be seen that there is a variation in the figures calculated above and the figure given by the Director.

2 The file relating to the Budget Estimate & the Engs for 1935-36 is forwarded

Sept file sent to the Secretariat with the Director's letter dated 17/1

S 4

Engr 8/10 AM 8/10/10

10) The discrepancy in the figures made pointed out & the Director asked to state what is the amount of the estimate to be sanctioned, taking the rate of T&P charges at 12½% under recent order. In the Director's letter it is stated that the sum of Rs 8755 already spent has to be deducted from the amount of the estimate, viz Rs 48833, whereas the Director's Accts states that the former was not included in the latter.

11) Please submit Draft

16 Failing the estimate yet to be worked out at about Rs 40,000 the Dy Com Hassan, recommended the grant of a loan of Rs 30,000 to the Mcy at 5% interest repayable in 15 years & also a grant in aid of Rs 10 000 from Govt for the work

17 The estimate as now calculated amounts to Rs 54,375 (including Engg charges at 12½%) Assuming that the request for a Govt grant of Rs 10 000 is to be sanctioned (Rs 4000 have already been allotted under the Current years Town Improvement Grant), the share to be met by the Mcy comes to Rs 44 375 or roughly Rs 44 000 The whole of the latter amount will have to be given as a loan to the Mcy for a period of 15 years at 5½% interest - which is the rate charged in similar cases The willingness of the Mcy to borrow the amount on these terms may perhaps be ascertained with information as to the sources of revenue which the Council would earmark for discharging the annual loan instalments interest without affecting its current expenditure If approved, the Dy Com will be addressed in the matter

18) The Director of Health may, before addressing the Dy Com, be consulted as to whether the Govt grant of Rs 10,000 referred to at A maybe sanctioned for the work, the balance of Rs 6000 being allotted next year

21) Issue

To Medl. Examr
5815-Dy 31-1-36
call for further particulars

Letter no C 2099-32 Dy 11-5-36 from
the DC, Hassan to forward the resolution
of the Hassan Town Municipal Council to the effect that
if Govt are willing to sanction a grant-in-aid
of Rs 10,000 for the drainage scheme, a loan
of Rs 44,375 at 5½% interest repayable in
15 annual instalments might be taken from
Govt, and recommending that a loan of Rs 44,000
at 5½% repayable in 15 annual instalments
may be sanctioned to the Municipality and that the
balance of the Grant-in-aid of Rs 6000 may
also be sanctioned

The Medl has examined the estimate

(Harman Town drainage scheme ✓
5 2 W 8 3 3 4 ✓ - - -

the annual income from both for the repayment of the loan instalment the annual income from this source is reported to be Rs 7950 The annual equated instalment payable by the mfg on account of the loan proposed to be taken would be about Rs 4383

23) The pdt has requested that the recovery of the Earth, Tools and Plant charges amounting to Rs 6042 may be waived & The Dep cmr has recommended that the balance of the Grant-in-aid of Rs 6000 may be sanctioned As the ~~amount~~ Grant of Rs 4000 sanctioned for the drainage scheme and of the current year's item Supplt Grant has been reappropriated for ~~the~~ extension improvement of the electric-supply Town, Govt will have to give a Grant of Rs 10000 next Year for the purpose, and the Town Supplt Grant

24) The resolutions of the mtgs, as also the connected records have not been received There may perhaps be called for Govt is to ask for applcn orders Proposal - Vide para 19 supra

30) A grant of Rs 5,000/- may be given to Hassan Town for the improvement of drainage

O Bankamayya
Director of Health

31) Noted

2) Resolved for orders with reference to para 27 of the notes supra

3) The Director is of opinion that a grant of Rs 5000 may be given to the Mpl for the improvement of drainage. It is not clear whether the amount referred to is intended to be given out of the current year's town improvement Grant and whether the real idea is to give a further grant of Rs 5000 towards the first share of the cost next year

4) If it is the idea to give only a grant of Rs 5000 for the work on the model a loan of Rs 44,000 has to be given to the Mpl for meeting its share of the cost. If so the file may be referred again to the Director for his remarks on the point raised above

26 SEP

Serial No

40 The proposals are -

(1) Sanction to the Hassan Town drainage scheme at a cost of ₹ 54 375/-

(2) Sanction of ₹ 10 000 as Government grant and (3) Sanction of a loan of ₹ 41 375 to the Municipality repayable in 15 annual instalments at 4½

41 It is stated that out of the Government grant of ₹ 10 000 a grant of ₹ 5 000 may be given this year and the balance will have to be provided next year

42 The period of repayment viz 15 years is too long and a much shorter period say 10 or 12 years may be prescribed Even taking that the loan is made repayable in 15 annual instalments the amount to be paid by the Municipality every year towards principal and interest comes to about ₹ 4 100 The drainage scheme can be sanctioned only if the Municipality is found capable of paying the instalments of the loan every year out of the normal revenue after meeting the existing commitments From the Budget estimates of the Municipality for 1956-57 it will be seen that the estimated normal revenue and normal expenditure are ₹ 46 340 and ₹ 44 000 respectively leaving a margin of ₹ 1 407 In connection with the Electric scheme the Municipality has to pay to the Electrical Department a sum of ₹ 11 715/-

(a) 300 street lights at ₹ 22-8-0 = 6 750/-

NOTE—Contn Sheet

12 Drainage Scheme

5540

File No 95 of 1935-36 General and Secretariat

(b) 7 ornamental lights @ 315/- (c) one five-way cluster lamp post Rs 150, (d) power for water supply @ 4 500), while only @ 9 000 has been provided in the current year's budget (@ 5 000 under Electric lighting and @ 4 000 for maintenance of water works apparently including charges other than power also) If this is taken into account the normal expenditure will be much more than the normal income The estimated closing balance is @ 12 331 against the prescribed minimum balance of about @ 30 000 The capacity of the Hassan Municipality to repay the loan proposed to be given is therefore very doubtful The proposal is therefore not financially acceptable The scheme has I think to lie over until the Municipality improves its resources and is found able to realise a substantial surplus to meet a portion of the capital expenditure or at least the loan instalments after meeting the existing commitments on a count of the Electric Lighting and Water supply scheme In the Budget estimates of the Municipality no provision has been made on account of water tax and ~~electric~~ lighting tax The Municipality may perhaps be asked to arrange for the levy of these taxes and renew the proposed drainage scheme after substantial improvement in Revenue is realised

To the DC Hassan D/-

No-L3322 of 6-11-36

States that the scheme may be renewed after substantial improvement in the revenue of the municipality.

From the DC Hassan D/-

No C 2094-348/13 11 36

Explains the financial condition of the mcty and states that in accordance therewith, it is possible to have a surplus of above Rs 4300/- pa & the mcty will be able to pay the annuity of Rs 4383/- pa, to cover an

NOTE—Contn Sheet

WD 0417-GPB—30 000—8 9 36

Serial No

account of the loan

4(9) The main points of difference between the calculations made by the Agency at para 42 supra and those made by the DC are -

(1) The opening balance for the year 36-37 should be taken as 8201 as against 6469 as approved in the budget of the city -

(2) The DC requested that the rule regarding maintenance of minimum balance may be relaxed during 36-37 in view of the fact that the drainage scheme has to be financed and that it might become necessary to withdraw even the investments (Vide his letter of 12-7-36 para 12 page 10) But the Agency is of opinion that the minimum balance of Rs 34,000/ should be maintained

(3) The DC also explains that under expenditure for Lighting Power charges, there will be some savings under heads such as Establishment & contingencies as even if the water works are run with electric power. So the DC further states that there will be additional revenue

2181 / Drainage Scheme 15/

Harbour

General and Revenue Secretariat | File No WL 95 of 1935 | [App. F III—2

Serial No.

from the levy of lighting tax from 1937-38, the year during which year the annuity on account of the loan would fall due

3/ In the above circumstances, the D.C. is of opinion that the mfg will be in a position to pay the annuity of Rs 4383/- on account of the loan & requests for the grant of a loan of Rs 44,000/- and a grant-in-aid of Rs 10,000/- ~~He~~ or as an alternative, he recommends that half the cost of the Scheme may be sanctioned by Govt as grant-in-aid and a loan equal to the other half granted

Noted for orders with reference to Secy's opinion at paras 40 to 42

Sd/ 23/11/36

5/ In the first para of P & D, the D.C tries to make out that even with the payment of electric & waterworks charges during the current year, the total expn under these heads would not exceed Rs 10,138/-. At the same time he admits that the provision made for this falls short by Rs 1138/- and he does not say how he is going to meet it. ~~For~~ In this connection, the two years during which the loan would fall due, what was pointed out in my office letter dated 6/11/36 (Page V) does not at all to the point

NOTE—Contn. Sheet

WD 0417—GPB—80 000—9 9 36

16 Hasham Premji Esq

File No 95 of 1935-36 General and Secretariat

Serial No

to say that the normal expre does not exceed the normal income while actually excess provision will be required under the particular head during the current year

5) In para 2 of D.O.D, he states that if the actual treasury balance of Rs 820/- had been adopted instead of Rs 6467/-, the minimum balance would have been Rs 14083/- and not Rs 12301/- now arrived at while fixing the Budget Estimates of the Mofy for 36-37. In this connection it may be pointed out that it would not be quite proper to adopt the Treasury balance for the opening balance in the Budget Estimates. The estimates are prepared in the month of March or April of a year (1936) and for it is given therein the estimate based on the budget figures and not on actuals. The Budget should be finalised before the 30th June 1936 and for being operated upon. To adopt the cash balance in the Treasury as it stood on 1-7-36 as opening balance would neither be possible nor reasonable. In a matter of that, even the investments & the advances & the imprest should also be taken as the cash available on 1-7-36, if the above reasoning is adopted. The amount in

Hastam Drainage Scheme 17

General and Revenue Secretariat — File No 95 of 1935-36 [App F III—2

Serial No

hand in the Treasury discloses the cash position of the Mdg on a particular date and it is different from the budget position as the figures flow: otherwise the budget figures will have to be completely altered The practice has all along been to adopt only the figures given in the Budget for ABTCB Hence the adoption of Rs 6 4 6 3 4 5/- as OB by this Mee is the correct procedure

5) In regard to the statement that the minimum closing balance to be maintained is Rs 11586/- based on the normal receipts of Rs 4 6 3 4 5/- it is not clear how the minimum balance works out to Rs 30000/- and reference is invited to the D-C's letter Para 12 - Page 5 wherein he has himself stated that the minimum closing balance according to the figures furnished by him then should be Rs 30,558/- These figures have been accepted by the Finance Dept in his note at para 4 supra & they are correct with refce to the D-C's letter above

5) In regard to the manner

NOTE—Contn Sheet

WD 03594—GPB—30 000—18 7 35

18 Kapurthala Drainage Scheme

Ind File No 95 5340/218/481 of 1935-36 General and Revenue Secretariat

In calculating the closing balance, Govt reference is invited to para 20 of the M. A. T. Vol II, according to which the prescribed minimum balance should be 25% of the annual Receipts of the year for which the budget estimates and 25% of the normal receipts. This will be quite out of the question

5b In regard to para 3 of this letter, the Darbar anticipates to realize a sum of Rs 5 lacs by the levy of the proposed Entertainment Tax & Lighting Tax but no proposals have been received in this behalf. It cannot be said with any certainty that the above amount would be realized. Neither could it be said that the normal expenditure would remain at the same level in future years.

5c In view of the above facts it is for orders if the loan of Rs 4,00,000 asked for may be sanctioned, along with the grant in aid of Rs 10000 asked for & the balance of Rs 2,00,000 be released during the current year. 6 pies

66 It may not be possible to sanction more than Rs 10,000 for this work as Government grant I am still of opinion that the present financial position of the Municipality does not justify the sanction of the present costly scheme involving an initial capital expenditure of Rs 54 375 (in the shape of Government grant and loan) and a recurring additional expenditure of Rs 4 100 to the Municipality From the cash account of the Municipality for October 1936 it is seen that the actual closing balance at the end of October 1936 was Rs 5 203 which is much below the prescribed minimum balance The scheme has to lie over till substantial increase in revenue is realised by the levy of lighting tax water tax etc after meeting the commitments on account of the Electric lighting scheme

spend only the sum of Rs 10 000 given by Government and may not spend any portion of their own money It is necessary to guard against such a contingency

73 As regards the provision of funds during the current year it will be seen from para 10 of the Notes that it is not possible to sanction any grant from General Revenues for this scheme during the current year There is also no provision for this work in the budget of the municipality for the current year and it is proposed to withdraw Rs 5000 from Investments for meeting the expenditure during the current year The amount held under Investments' is only Rs 10 765 and the withdrawal of Rs 5000 therefrom does not seem to be desirable in view of the shortage in the prescribed minimum balance and the liabilities of the municipalities on account of deposits electric lighting etc I would therefore suggest that the work may be started only during the next year after providing funds for it in the budget for the next year and that the amount of grant to be paid by Government should be 10/54 of the total outlay in each year subject to a maximum amount of Rs 10 000/- in the aggregate

SIR

I have the honour to forward herewith a copy of letter No C 2099-34 dated 9th April 1935 from the Deputy Commissioner, Hassan along with the drainage project for Rs 48,333/-

The drainage for Hassan is an absolute necessity as it is a District Headquarter with a fairly big population

As the President of the Municipality has proposed that the work be executed by the Sanitary Engineering Bureau of the Public Health Department, establishment tools and plant charges at 18 per cent have to be added on to the amount of Rs 48,333/- which estimate was given without taking into consideration the establishment, tools and plant charges

The Municipality have already worked out to some extent at a cost of Rs 8,755/- This amount was not also included in the original estimate of Rs 48,333/-

I request that you may be so good as to obtain and convey sanction of Government for the project at a cost of Rs 56,547/- which includes the 18 per cent charges on tools and establishment

I have the honour tobe,
Sir,
Your most obedient servant,

P Parthasarathy
Ag Director of Health

Letter No C 2099-34 dated 9th April 1935 from the Deputy Commissioner, Hassan District, to the Sanitary Engineer, Bureau of Sanitary Engineering, Bangalore

---

In forwarding herewith in original, letter No 419-34 dated 21st February 1934 with its enclosures received from the President Hassan Town Municipal Council, Re, the Drainage Scheme for Hassan, I have the honour to state as follows -

The original project for the drainage scheme for Hassan estimated to co t Rs 48,333/- received with your letter No 1466 dated 15-12-1934, having been placed before the Council they resolved at their meeting held on 26-1-1935, that the estimate be sanctioned, that Government be requested to make a substantial contribution towards the cost of the scheme and waive the establishment charges, that drainage scheme be got ready for the Krishnarajapuram extension, Aduvalli, Rajaghatta Basettikoppal, Raksnapura and Adlimane - all suburbs of the town, that for financing the entire scheme Government be approached to sanction a loan of Rs 60,000/- in two annual instalments, at a concession and minimum possible rate of interest, repayable in 15 annual equated payments including the interest

The President has in submitting the estimate a copy of the above resolution, stated that the normal annual income and expenditure are Rs 47,380/- and Rs 41,427/- respectively, which leaves a surplus of Rs 5,953/-, that it is not difficult for the Municipal Council to repay the loan in 15 yearly instalments, that the first stage of the estimate viz , main drain No 1 has already been worked out at a cost of Rs 8,755/- that the intention of the Council is to start the remaining portion of the work at once through the agency of the Sanitary Department, and has requested you to kindly obtain the sanction

of Government to the enclosed estimate, waiving the establishment charges and to the loan applied for and also to the question of liberal grants-in-aid from Government He also stated that though Hassan is the premier Municipality in the District, it has not received any substantial grants from Government, in recent years, and has, in spite of it, volunteered to take up this scheme at its own cost by borrowing money from Government at interest, and that it would be possible to complete the work throughout the municipal area out of the loan asked for, as also from the savings out of the original estimate

In this connection, I may state that as stated by the President, it is a fact that this Municipality has been carrying out the town improvement works to the largest extent in the District in recent years and the drainage scheme which is now proposed to be undertaken is a long felt necessity

The council want the loan in 2 instalments of Rs 30,000/- each, the idea being that while the first stage is being worked out the second stage may be got ready, and the amount actually required by them may be taken from Government If in the meanwhile any grants-in-aid are sanctioned by Government, it will lessen the burden of the Municipal Council for the repayment of the loan

The estimate now sent covers the old town and the northern extension Three more estimates are necessary for extending the scheme for the whole Municipal area As already stated above the Council have resolved to obtain the estimates for the remaining portion of the Municipal area Deducting the amount spent for constructing main drain No 1 viz , Rs 8,755/- the balance value of the remaining portion of the work would be Rs 39,578/- or Rs 40,000/- in round figures It is noted in the estimate that the Establishment charges at 7½ per cent would be Rs 3,625/- The Municipal Council have requested that the charges may be waived

In these circumstances, I request you to be so good as to obtain the sanction of Government to the enclosed estimate and also move them to waive the establishment charges I also request you to kindly recommend the case of this Municipality for the grant of a loan of Rs 30,000/- in the first instarce at 5 per cent interest, repayable in 15 yearly instalments of Rs 2,890/- each

I further request that Government may be moved to sanction a grant-in-aid of Rs 10,000/- to this Municipality, so that their burden may be lessened to some extent, as they have resolved to meet the entire cost themselves

Development Secretary to Government,
B a n g a l o r e

SIR

With reference to your letter No L 5815/Ml-95-35-1F, dated 31st January 1936, forwarding the estimate for Rs 54,375/- for the Drainage Scheme to Hassan Town, received from the Director of Health, Bangalore, and calling for a report as to whether the Hassan Town Municipal Council are willing to borrow a sum of Rs 44,000/- from Government, at 5½% interest and to repay it in 15 annual instalments and also to intimate the source of revenue which they would ear-mark for the repayment of the loan, I have the honor to state as follows -

2 The President, Hassan Town Municipal Council, who was addressed in the matter, has furnished copies of the resolutions of the Council, passed at their meetings held on 20th Feby 1936 and 28th March 1936, to the effect that if Government are willing to sanction a grant-in-aid of Rs 10,000/- for this work, a loan of Rs 44,375/- at 5½% interest repayable in 15 yearly instalments might be taken from Government and that the annual income from toll might be ear-marked for the repayment of the same

3 In submitting the above, the President ~~of~~ has stated that the income from toll revenue is Rs 7,930/- and has requested that the Establishment Charges amounting to Rs 6,042/- provided for in

in the estimate might be waived, and that the estimate, the grant-in-aid of Rs 10,000/- and the loan of Rs 44,375/- be sanctioned

4 The normal expenditure of this Municipality is within the normal income (Vide G O No L 2450-Ml 81-35-7 dated 4-10-1935, sanctioning the Budget Estimates of this Municipality for the current year) The income from toll during 34-35 and 35-36 was Rs 6802/- and Rs 7930/- respectively The annuity would be about Rs 4383/- The finances of the Municipality are satisfactory and the Municipal Council have taken action to augment their resources by levying shop and profession taxes As such they will not find it difficult to meet the annuity

5 In this connection, I invite kind reference to G O No L 2821-31 Ml 113-35-2 dated 18th October 1935, sanctioning a grant-in-aid of Rs 4,000/- to this Municipality for the Drainage Scheme

6 I request you to be so good as to obtain the sanction of Govt , to the estimate I further request that a loan of Rs 44,000/- at 5½% repayable in 15 yearly instalments and the balance of the grant-in-aid, viz , Rs6,000/- may also be sanctioned

7 The entire records ending with Hassan Town Municipal President's report No 819, dated 29th March 1936 and its enclosures, together with the plan and estimate received with your letter under reply are herein enclosed for kind perusal

Enclosed

No L 3320/L Means Dated Bangalore 28th Oct. 1936

From

The Secretary to the Government of His Highness the Maharaja of Mysore
Development Department

To

The Deputy Commissioner,
Hassan District, Hassan

Sir

With reference to the correspondence ending with your letter No 2099/34 dated the 28th May 1936, requesting sanction to the drainage scheme of the Hassan Town at an estimate cost of Rs 54,375/- and the grant of a loan of Rs 44,375/- from the Government to the Municipal Council repayable in 15 annual instalments, carrying interest at 4½% to meet the Municipal Council's share of the cost of the scheme, I am directed to observe as follows -

From the Budget estimates of the Municipality for the year 1936-37, it is seen that the estimated normal revenue an normal expenditure are Rs 46,345 and Rs 44,888 respectively, leaving a margin of Rs 1,457/- only In connection with the electrification scheme, the municipality has to pay to the Electrical Department, a sum of Rs 11,715/-, (a) 300 street lights at Rs 22-8-0 = Rs 6,750 (b) 7 Ornamental lights - Rs 315/- (c) one five-way cluster lamp post Rs 150/- and (d) power for ~~work~~ water supply - Rs 4,500/- while only a sum of Ps 9,000/- has been provided in the current year's budget (Rs 5,000/-) for Electric lighting and Rs 4,000/- for maintenance works apparently including charges other than power also If this is taken into account, the normal expenditure will be much more than the normal income The estimated closing balance is Rs 12,331/- against the prescribed minimum balance of Rs 30,000/- In the light of the above facts, the proposal does not commend itself to Government and the scheme has to lie over until the Municipal Council improves its resources and is found able to realize a substantial surplus to meet a portion of the capital expenditure or at least the loan instalments after meeting the existing commitments on account of electric lighting and water supply schemes I am to request you to communicate the above facts to the Municipal Council who may also be advised to arrange for the levy of water and lighting taxes in the Municipality and renew the proposed drainage -- scheme after substantial improvement in Revenue is realized

Sir,

With reference to your letter No L 3320/Ml 95-35 dated 6th November 1936 stating that in the circumstances mentioned therein, the Drainage Scheme for Hassan Town might lie over for the present, I have the honour to state as follows -

1 The Hassan Town Municipal Council will have to pay Rs11715/- per ~~mensem~~ annum to the Electric Department according to the guarantee furnished by them But the Scheme was introduced only with effect from 9th September 1936 and power is not being consumed on account of the water works Taking only the expenditure on account of street lighting into consideration for the present, the expenditure during the current year, would be only Rs5853/- The average expenditure on account of the water works, using only oil engines, is Rs4322/- Thus the total expenditure would come to Rs10135/- This exceeds the Budget provision by Rs1135, but the total normal expenditure under all heads will not exceed the normal income

2. In this connection, I invite your kind reference to my letter No C Per 114 y/35-36 dated 13th July 1936 wherein, I had requested that the opening balance of the Municipality for the current year might be taken as to Rs8201/- as this represented the actual opening balance according to the Treasury figures But while sanctioning the Budget Estimates of the Municipality, the anticipated opening balance of Rs6469/- has been adopted (Vide G O No L 1807-8/Ml 81-35-12 dated 5th

September 1936)taking the actual opening balance into consideration, the Budget would stand as noted in the margin The anticipated closing balance would be ₨14083/- and not ₨12351/- Even if the excess expenditure on account of lighting charges is taken into consideration, the anticipated closing balance would be ₨12948/- The normal receipts being ₨46345/-, the minimum closing balance to be maintained is ₨11586/- It may thus be seen that the Municipal Council can maintain the prescribed minimum balance equal to 1/4th of the normal receipts It is not clear as to how the minimum balance workout to ₨30000/- as stated in your letter under reply Besides, the Council have a sum of ₨10765/- under investments (vide last para of the G O of 5th September 1936)

3 The Municipal Council have already taken action to levy shop and profession taxes and a sum of ₨3000/- is expected to be realized from these sources Moreover the Municipal President has just discovered that about 200 newly built houses have escaped taxation and has taken steps to tax them this year This might bring an additional income of about ₨1000/- As suggested in your letter, action will be taken to levy Lighting Tax at ₨ 0-4-0 per Rupee of the Demand under assessed taxes and a sum of ₨2250/- would be realized from this source, as the annual demand under assessed taxes is ₨9000/- This will be brought into force from 37-38, during which year, the annuity on account of the loan would fall due The normal income will, after taking these items into consideration will increase to about ₨50345/- and the normal expenditure after adding ~~xxx~~ ₨1135/- referred to in para 1 (deficit Lighting Charges) will increase to about ₨46023/- resulting in a surplus of ₨4322/- (approximately) The average expenditure on account of the water works is already ₨4332/- Even if the water works are run with the help of electric power, the ~~expenditure~~ expenditure is not likely to exceed the present average expenditure as this change will result in savings under other heads such as Establishment, Contingencies etc It may thus be seen that even after meeting the expenditure on account of Electric lighting, still, there is

the possibility of having a surplus of about Rs4300/- per annum The Council will have to pay an annuity of Rs4383/- on account of the loan, and thes could be met out of the surplus

4 This ~~being the~~ Head Quarters Municipality, has not received appreciable grants-in-aid in previous years, as the Council have not taken up any big Schemes The Drainage Scheme has to be urgently taken up The Municipal Council are doing their best to provide the necessary amenities to the public in all possible directions and their prayer for a grant-in-aid deserves sympathetic consideration

5 In these circumstances, I request you to be so good as to move the Government to kindly reconsider their orders and sanction the loan of Rs44000/- and the grant-in-aid of Rs10000/- as already requested If this is not possible, I request that half the cost of the Scheme may be sanctioned by Government as grant-in-aid and a loan equal to the other half sanctioned, in which case the Council will be able to meet the round annuity easily

6 The records received with your letter under reply are herein enclosed

I have the honour to be,

Sir,

Your most obedient servant,

Deputy Commissioner,

Sir

With reference to correspondence ending with your letter No L 4570 M1 dated 23rd December 1936, re the drainage scheme for Hassan Town, I have the honor to state as follows -

2 The Hassan Town Municipal Council before whom the subject was placed, resolved at their meeting, held on 30th January 1937, that the arrangement suggested in your letter, viz , taking up the work by stages, be accepted and that work costing 10,000/- which includes the grant-in-aid of Rs 5000/- promised by Govt , be taken up during the current year

3 The President has submitted the plan and estimate together with a copy of the above resolution and has requested sanction to the scheme and the grant-in-aid

4 As there is no provision in the sanctioned budget of the Municipality for the current year, to pay the Municipal quota, I have asked the President to provide the sum of Rs 5000/- by withdrawing the investments

5 I request you to be so good as to obtain the sanction of Government to the estimate furnished by the Sanitary Engineer with permission to execute the work in stages and also the grant-in aid of Rs 5000/- during the current year

I t o.

Proceedings of the Government of His Highness
the Maharaja of Mysore

Subject -

Correspondence ending with letter No C 397-12 dated 8th January 1936 from the Director of Health forwarding for sanction an estimate for Rs 54,375 for the drainage scheme for Hassan Town.

2 Correspondence ending with letter No C 2456/36-37 dated 1st March 1937 from the Deputy Commissioner, Hassan District reporting that the Hassan Town Municipal Council have resolved that the arrangement suggested by the Government namely taking up the drainage work by stages, be accepted and that the work costing Rs 10,000 be taken up during the current year half the cost being met by the Municipality and the other half being given by Government as grant-in-aid

---

Order No L 7422 - 4/Mul 95-35-78

Dated, Bangalore 13th April 1937

Administrative Sanction is accorded to the estimate for Rs 54,375 (including establishment, tools and plant charges at 12 per cent) for the drainage scheme for Hassan Town, on the understanding that it will be carried out by stages

2 Government direct that the ~~execution~~ execution of the work be commenced during the year 1937-38 and that the outlay during the year be limited to the amount which the Municipal Council can set apart in its budget for the purpose with due regard to other liabilities, out of its ordinary revenues and invested funds. An equal amount but not exceeding Rs 5,000/- will be given by Government as a grant for the work for the year 1937-38 only out of the Town Improvement Grant for the year
